OBJECTIVE

To continue building a successful career in Financial and Management Information Analysis. To develop my financial, analytical, and computer skills to create innovative solutions to a variety of challenges.

QUALIFICATIONS

I have spent the past 13 years working in all areas of IPA's and Physician Practice Management. The majority of this time has been as a Financial Analyst creating Budgets, Financial Statements, and numerous reports from system specific report writers. I have also invested time to ensure that the computer skills I developed as Management Information Systems Supervisor, where I Administered several types of Computer Networks and Software Packages, remain up to date.

WORK EXPERIENCE

Owner and Chief Consultant - October 2000 through present -

Overgaard Financial - www.overgaardfinancial.com

Started Health Care Financial consulting company. Provide consulting services for all areas of Health Care Business Financial Information needs. Provide per member per month analysis of the Cost of Care by specialty for comparison to health plan contracts for Contract negotiation. Create information for primary care physicians that shows the per member per month expense for their members for care management and expense based compensation. Create automated physician compensation calculations.
